

EVENTUALLY

YOU as well as every other automobilist who desires comfort when touring will be a fortunate owner of a

JACKPUMP

Which created sensations at all the automobile shows in the country. Thousands of satisfied owners are shouting the praises of this latest and most successful accessory ever placed on the market. We guarantee every **Jackpump** that leaves our factory, for one year. We know what this **Jackpump** will do. We want you to know it also.

Jackpump (Folded)

Jackpump

The Jackpump Method

NO exertion or strength required. A child can operate it. When you inflate your tires you stand erect; a few strokes and the work is over. The accompanying cuts show **Jackpump**. It's simplicity itself. This device is scientifically constructed of the best materials by skilled workmen, who have been specialists in the manufacture of air pumps since 1846. **Jackpump** has been tried and tested in every possible way, and thousands of satisfied users testify to its merits and efficiency.

Jackpump not only inflates your tires but is as strong a jack as money can buy and will do more than any other jack will do. It will raise the heaviest car manufactured 3" with each stroke of the lever. The inner tubes may be changed while the **Jackpump** is in position, all operations being done on the outside of the wheel with very little labor. Its weight is only 14 lbs. and it can be folded up and carried with the regular equipment on any kind of a car.
